ABSTRACT

Katie Mack, Ph.D. answers questions from students about the history and future of the universe. Matt Shipman moderates.

Katherine “Katie” Mack is an assistant professor of physics at NC State and a theoretical astrophysicist who studies a range of questions in cosmology, the study of the universe from beginning to end. Throughout her career she has studied dark matter, the early universe, galaxy formation, black holes, cosmic strings, and the ultimate fate of the cosmos. Moderator Matt Shipman specializes in research communication and media relations for NC State.
